

MNCG FEMALE ENGAGEMENT TEAM COURSE

17 - 21 June 2019 Course Description

1. Bottom Line Up Front	
Current NATO/UN/EU operations call for a comprehensive engagement strategy that is essential to develop community trust and create the cooperative environment necessary to achieve mission objectives. To deal with challenges originated mainly in Afghanistan, (present NATO's major Theatre of Operations but this is also applicable to any stability ops or under any aegis), Female Engagement Teams (FETs) were established. FETs are battle field enablers who listen, inform and interact with the local population, primarily women, to build enduring trust, confidence and increased support towards Host Nation Government and Multinational Force. In response of the new challenges identified, MNCG participating Nations appointed CJ7 Branch to design and conduct a specific course nominated "MNCG Female Engagement Teams (FETs) course". This edition of the course is primarily directed to the major, current commitment (Resolute Support Mission) but the contents and structure applies to any other operation and covers the main topics which are deemed necessary from the experience in the field.	
2. Aim of the Course :	
The FET Course is primarily designed to train the appointed Female Engagement Teams (FETs) operating at Tactical level. This edition aimed at Train Assistance Advice Command (TAAC) WEST enables NATO Officers/NCO to conduct FET activities at tactical level interacting with local female population in support of mission objectives. The secondary aim is to inform and train civilian attendees with a parallel interest for the Theatre of operations with a special focus on the comprehensive engagement strategy of the local population, primarily women and children.
